Precision Recyclers Data security statement:

***Precision Recyclers Data Security objective is to ensure the highest level of data security for hard drives processed at our electronics recycling facility. We have implemented robust data destruction practices that guarantee the complete erasure of all sensitive information stored on the hard drives. Our goal is to protect the privacy and confidentiality of our clients' data, preventing any unauthorized access or potential data breaches. Through adherence to industry standards and best practices, we aim to provide peace of mind to our clients, assuring them that their data is securely handled and destroyed during the recycling process.***
